

“The world war with the AIDS weapon continues to rage. Only truth and knowledge will defeat it!”

Boyd E. Graves, J.D.

WORLD WAR AIDS was declared as quietly as Dr. Boyd E. Graves landed at Kansas City International airport on the evening of December 1, 2000. It was World AIDS Day.

As an anxious nation awaited patiently for the United States Supreme Court to choose America’s next president, Dr. Boyd E. Graves’ U.S. Special Virus Flow Chart discovery would soon confront our nation’s highest court and the American people with the most difficult reality one nation under God could ever face.

From U.S. Supreme Court Case No. 00-9587 to the recently concluded U.S. General Accounting Office investigation into the ‘missing appropriations’ which funded the “US Special Virus” program; Graves shares candid transcripts from the world’s highest courts and top AIDS experts to help readers bring the scientific significance of his 1971 US Special Virus Flow Chart discovery into painfully sharp focus.

“WORLD WAR AIDS” is an educational offensive directing the world to learn more about the evidence of the laboratory birth of AIDS before it is too late. It is the inspiring story of one man’s relentless pursuit for truth and justice and his heart felt duty to help humanity.

Educating, motivating, and urging the world to review America’s formerly secret Special Virus development program; Graves continues providing hope for the world’s AIDS hopeless.

Here, Dr. Boyd Graves offers the world a deeper look behind the federal ‘AIDS’ curtain and demonstrates how only truth and knowledge can help us work together to end AIDS forever and help us win America’s new war.

Boot camp is over!

LETTERS FROM THE FRONT

**“There is substantial evidence to suggest the military-medical-industrial complex of the United States, Britain, and other European nations were involved in activities to create a retroviral leukemia-sarcoma-related T-cell-attacking immunodeficiency-causing agent between the period of 1962 to 1978. If this issue is to receive its proper hearing, it will require the collective efforts of many, many intelligent ethical humanitarians. I support Dr. Boyd Graves’ activism in this regard.
Please join this struggle.”**

Professor Robert E. Lee AMERICA April 6, 2002

“*Boyd, we had several NIH grants until 1972. Unfortunately the Special Virus Cancer Program took supporting funds from other investigators forcing them to switch to cancer research and follow NIH Research Logic which was aimed at HIV and other viruses.*”

Dr. Harold Clark, AMERICA June 2002

“It is with great honor I write these words “thank you.” For years I have tried to make this case of the US involvement in the manufacturing of the AIDS virus. I think now the truth will be told.”

It is a blessing to have genocide exposed and in our midst also to have a teacher of life as the most honorable minister Louis Farrakhan. It is through his newspaper The Final Call I was informed of your work. It is good to see great men help in the work of the Mighty God of healing humanity in example.”

“Thanks for your relentless efforts. If there are federal politicians still unaware of this AIDS conspiracy its shameful - you have provided more access to information than the everyday man and woman will ever have.”

Ahmad M. Abdullah AMERICA April 13, 2002

“Without a doubt, the Special Virus Cancer Program Flowchart and its respective Progress Reports clearly establish The United States of America’s creation of the AIDS hybrid virus, internal toxic lipoprotein and the mycoplasma packaging unit. It’s no coincidence that The Who’s Who of AIDS from Dr. Mathilde Krim, Dr. Garth Nicholson to Dr. Robert Gallo were contractors involved. That the major media overlooked this early attempt at gene therapy using specific cell membrane receptors, is unacceptable. That the global population was misled to AIDS is a crime against humanity. . . The Silence Must Be Broken.”

Dr. Dean Loren, Esq. AMERICA January 12, 2001

WHAT AN AWESOME BOOK! I received my copy of Dr. Graves’ “STATE ORIGIN” today. What a great Christmas gift!!! And what an awesome book!!! I could easily think of a dozen more superlatives, but I’ll let the above suffice. I saw immediately that Dr. Graves did his homework and more.....That he did it in such an easy and readable style (not stilted, dry academese) is marvelous!!! Thanks to Dr. Graves! And thanks to you!!!!
